**Areas of Experience:**

Natural resources management associated with urban development, the mining and gas industries, tourism, defence, and primary industries – often in rural and remote locations.

Marine estuarine and freshwater ecology; water and sediment quality; wetland management, survey designs and analysis.

Background:

Carol’s professional background spans research and natural resource management for the NSW Government, applied research with the CSIRO, and most recently as an environmental consultant. Carol is as comfortable in ‘fluro’ on remote mine site, as she is providing strategic advice in the boardroom. Carol, has been both a union representative and a business owner, and has managed a rural property. Her analytical thinking underpins her ability to offer advice that is both principled and practical. Carol is married with two adult children and a dog, and enjoys reading, cooking, travel and the arts.
